

Manual Cyberlink Powerdirector (Android)

Choose “New Project” to start a new sequence. It’s important to tick 16:9 as Project Aspect Ratio because you are shooting in landscape.

Add a video/photo/music by choosing the right folder or capture a new video.

The screenshot displays a video editing application interface. At the top, a digital watch on a wrist is the central focus. To the right is a vertical menu with options: Audio Mixing, Settings, Tips, and Tutorials. On the left, there are icons for Title, Sticker, Video, and Image. Below the watch is a timeline with a time scale from 00:00 to 00:16. On the far left, a list of video sources is shown, with a blue box highlighting the first source and its associated instructions.

Menu Options:

- Audio Mixing
- Settings
- Tips
- Tutorials

Left Panel Icons:

- Title
- Sticker
- Video
- Image

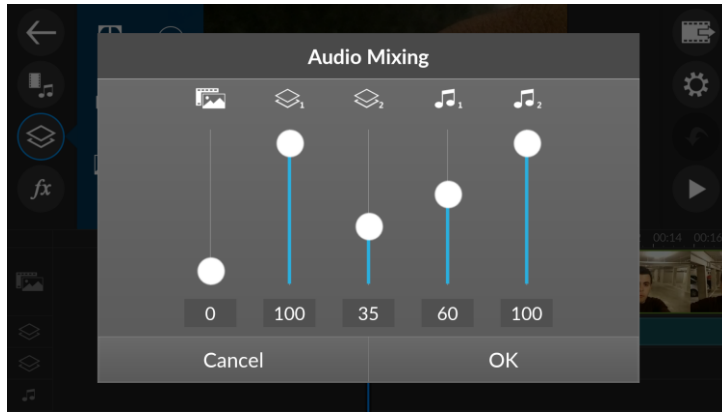

Timeline: 00:00 00:02 00:04 00:06 00:08 00:10 00:12 00:14 00:16

Video Sources List:

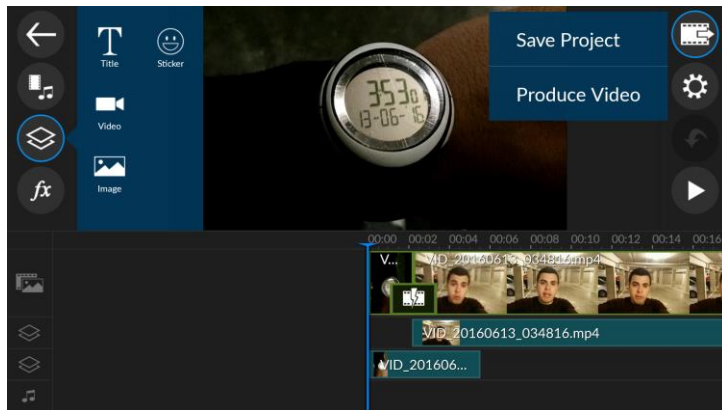

- V... VID_20160613_034816.mp4
- VID_20160613_034816.mp4
- VID_201606...

Instructions for Video Sources:

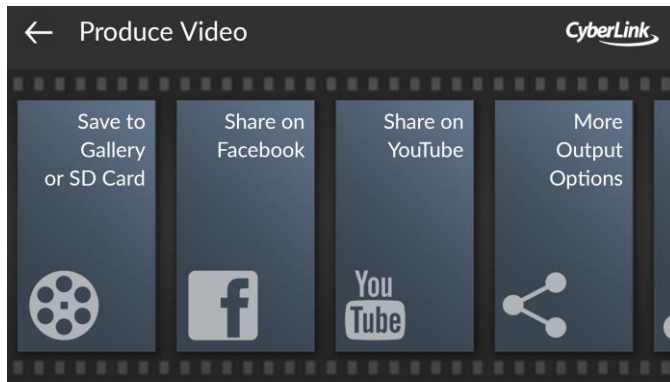

- V1: Only use this source as a videosource
- A1: Duplicate video V1 if it's an interview or stand-up, make it transparent
- A2: Duplicate video V1 if it's an insert, make it transparent
- A3: Music or Voice-over

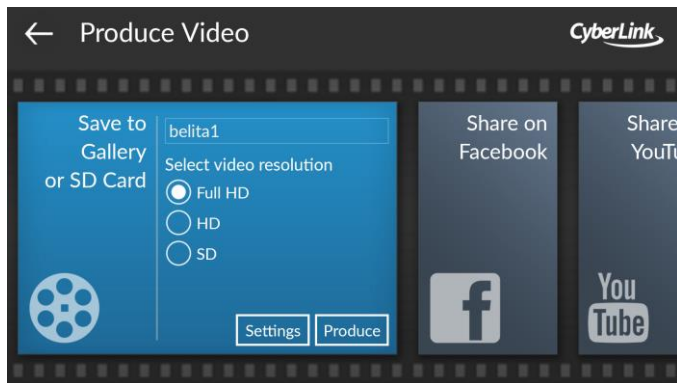

Following audiosettings are an indication if you want to make a newsitem.

At the end: choose produce video or save project if you want to edit it later.

You can share the media immediately on Facebook or Youtube.

Keep it mind how you would like to send your video. If you are using 4G, choose HD. If there's a WIFI, you could choose Full HD.
